Catecholamines
  Plasma, in patients in cardiac arrest, 54:133
  Urinary, in essential hypertension, 57:637
Central nervous system
  Sarcoidosis in, 56:457
Cerebral ischaemia
  Human, pathophysiology of. A new perspective obtained with positron tomography, 57:713
Cerebral ischaemic events
  Association with mitral valve prolapse in the young and early middle-aged patient, 56:387
Cheilitis granulomatosa, 54:101
Chlamydia psittaci
  Sepsis, in pregnancy, 57:689
Cimetidine
  Safety, post marketing surveillance of, 54:253
Cirrhosis
  Decompensated, the renin-angiotensin-aldosterone system in. Relation to sodium balance, 56:485
  Non-alcoholic, serum bactericidal and opsonic activities in, 56:431
  Primary biliary, and osteoporosis, 57:000
Collagen
  And collagen gene disorders, 56:533
Colonic neoplasia
  Caused by *Streptococcus bovis*, 56:439
Continuous ambulatory peritoneal dialysis (CAPD)
  Limited resources and the treatment of end-stage renal failure in Britain and the United States, 56:321
  Long-term, renal osteodystrophy and metastatic calcification in, 54:29
Coxiella burneti
  Subclinical chronic Q fever, 57:669
Crohn's disease
  In oro-facial granulomatosis, 54:101
  Small bowel, 54:183

Colon, 54:183
Pyogenic liver abscess in, 56:505
Cryptococcosis
Care of, during continued immunosuppressive therapy, 55:169
Cystic fibrosis
Hypovitaminosis D in. Response to supplementation in older patients, 56:377
Cyclosporin
Long-term use in liver grafting, 57:897
Debrisoquine
Polymorphic hydroxylations, pharmocogenetic implications of (editorial), 54:115
Deficiency
Thiamine, at a district general hospital, 55:15
Dermal vasculature
Quantitative evaluation in diabetics, 54:229
Dermatological disease
Small intestinal permeability in, 56:559
Desferrioxamine
Cerebral and ocular toxicity induced by, 56:345
Diabetes
Dermal vasculature in, quantitative evaluation, 54:229
Insipidus, familial cranial. A report of five families. Genetic, diagnostic and therapeutic aspects, 57:883
Insulin-dependent, limited joint mobility in. Relationship to retinopathy, peripheral nerve function and HLA status, 56:337
Quantitative evaluation of the dermal vasculature in, 54:229
Duodenitis
A clinical, endoscopic and histopathologic study, 56:593
Drugs
Anti-rheumatic, in rheumatoid arthritis, 54:49
Dyspepsia
55:119
In duodenitis, 56:593
Empyema
And lung abscess, 57:875
End-stage renal failure (ESRF)
Limited resources in its treatment in Britain and the United States, 56:321
Endarterectomy
Carotid, 55:189
Endocarditis
Streptococcus bovis, 56:439
Streptococcus sanguis, Myocardial depression and nephrotic syndrome in, 57:867
Extracranial arterial disease
Asymptomatic, natural history of, 55:109
Genes
Collagen, 56:533
Glomerulonephritis
Acute, and lung haemorrhage, clinical spectrum of, 55:75
